

SUPERINTENDENT'S REPORT
September 14, 2005

Start of the Year

The school year got off to a great start. Classrooms were ready to go because most teachers spent a great deal of time in their rooms in the waning days of summer. Administrators appreciate that commitment to preparedness and a smooth start.

IASB Dinner Meeting

The Illinois Association of School Boards, DuPage Division is having its annual dinner meeting on September 29, 2005 at Argonne National Laboratories. The registration flyer follows this report for more information. Any Board members interested in attending should contact Catherine by September 19th.

Enrollment

We have all been watching first grade enrollment quite closely. As of this writing, there are 95 "regular" first grade students enrolled in 4 classrooms. This is a discussion topic later in the meeting.

Katrina Relief

Many staff and students are interested in doing something to assist those Americans whose lives were devastated by hurricane Katrina. At this time we do not have a specific plan. However, whatever happens, we do want it to be district wide and, if possible, coordinated with the village of Itasca and/or other governmental agencies.
